

Beamer color and font themes for the University of Connecticut

part of a suite of themes

Jason Cory Brunson, PhD

Center for Quantitative Medicine
University of Connecticut School of Medicine

May 28, 2019

Table of contents

Default font family

The default font family is Arial, which is used in the PowerPoint templates (see the [Acknowledgments slide](#)).

Palette colors

palette colors used by outer themes interpolate between navy blue and white:

palette

primary
secondary
tertiary
quaternary

palette sidebar

primary
secondary
tertiary
quaternary

For example, `palette secondary` is defined using

```
bg=uconn navy blue!80!uconn white,fg=uconn white
```

Frame element colors

The symbol colors for itemized and enumerated lists progress

- ▶ from purple,
 - ▶ through orange-gold,
 - ▶ to green.

Alerted text is rendered in orange-gold.

Remark

Block and caption titles are boldfaced and rendered in dark red.

Hyperlinks and buttons are rendered in teal blue. See [Customization](#) and [Acknowledgments](#) for examples.

Manually assigning colors

```
{\color{uconn purple} purple}
```

(with brackets) to render **purple**, or set

```
\color{uconn health bright teal}
```

(without brackets) to color all text in a slide the bright teal in the UConn Health palette.

Color names are based on the UConn Brand color palette.

[Visit the Brand Standards website](#)

Changing the theme

can change the default colors by using `setbeamercolor` in the preamble, as i did:

```
\setbeamercolor*{titlelike}{  
  bg=uconn navy blue,  
  fg=uconn white  
}
```

...or by editing the color theme file `beamercolorthemeuconn.sty`. Please [check with the Brands office](#) about using the derivative theme, e.g. one with the colors themselves altered.

Acknowledgments

I relied heavily on the following resources:

- ▶ the [Beamer class users guide](#)
- ▶ Thierry Masson's Beamer [cheat sheet](#)
- ▶ UConn Brand Standards (<http://brand.uconn.edu/>)
 - ▶ the [color palettes](#) defined in `beamercolorthemeuconn.sty`
 - ▶ several [PowerPoint templates](#)

If you have suggestions for improvement, please let me know!
